Notes: Scientific nomenclature follows the *Flora of North America North of Mexico* (Flora of North America Editorial Committee 1993-2016),

The Jepson Manual (2012), Gordon-Reedy (1990), and Broich (1987), Hasenstab-Lehman, K.E., & M.G. Simpson (2012), Luebert et al. (2016),

Nesom (2012a, 2012b, 2013) for *Erythranthe* and *Diplacus*, and Tulig & Nesom (2012) for *Diplacus*.

Most current taxonomy is followed when changed have occurred since publication of the above listed references.

Common names follow Abrams & Ferris (1960), Neihaus and Ripper (1976), and DeGarmo (1980).

Underlined names indicate those found only on the Channel Islands (Anacapa Islands and San Nicolas Island).

An "*" indicates non-native taxa that have become naturalized or persist without cultivation.

Habit definitions:

AF = annual fern or fern ally.

AG = annual grass or graminoid.

AH = annual herb.

BH = biennial herb.

PG = perennial grass or graminoid.

PH = perennial herb.

PV = perennial vine.

S = shrub.
